At the hour of **the development of new technologies** and new services in the worldwide **innovation market, market and business intelligence has never been so necessary**. In a globalized world where the **economic-technological war beats its drum**, differentiation is a major asset. This is why, at CBDM.T®, our job is to chart and analyze, in an objective and exhaustive way, all players and technologies of the market in order to establish a **powerful market-oriented strategy**.

CBDM.T® is a **market and business intelligence company** with offices in France, Switzerland and Israel. As an advisory services company, CBDM.T® **boosts** companies to develop **revenue** and **growth** by providing business and marketing services in the life science and biotech markets (market surveys, market scouting, business development and strategic supports).

CBDM.T® provides to small, medium and large companies technology-based business development support to identify new customers and also to fine-tune a business strategy. Typically, CBDM.T® interacts with its clients as business development or executive partners to maximize effectiveness and minimize risks to sound out international markets (WOI - Window Opportunity Identification).
